FERNE

have a seat.

A new brand based on over 30 years of experience.

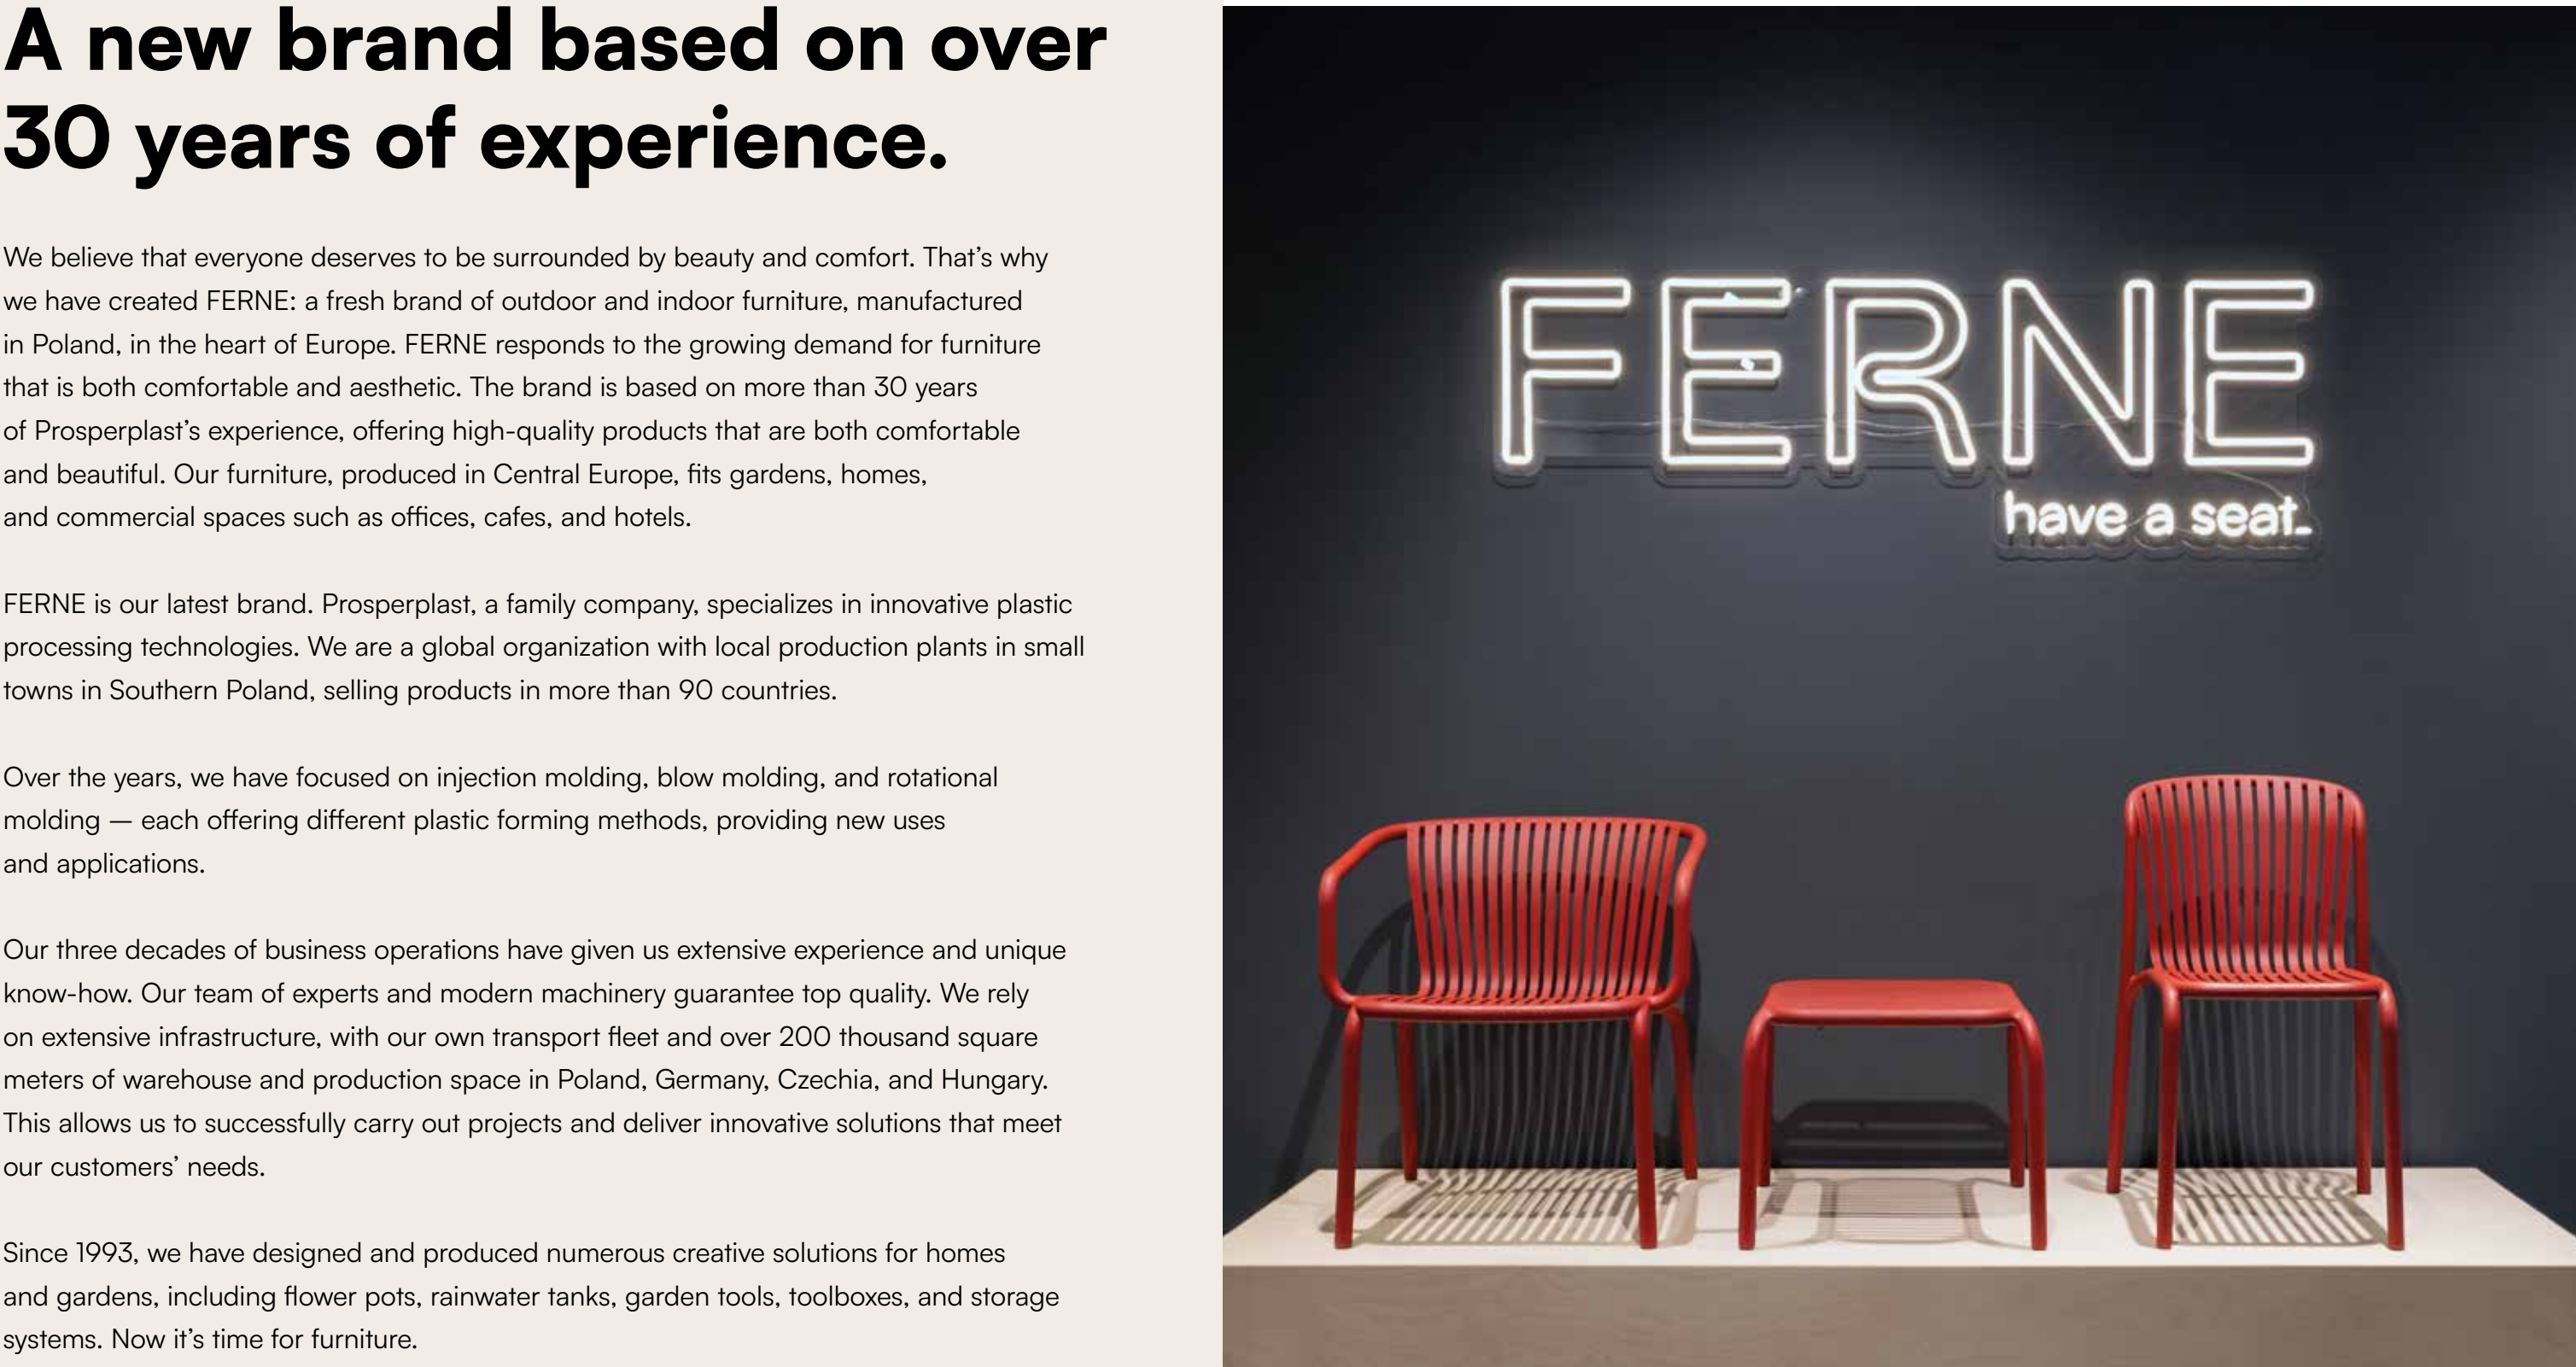

We believe that everyone deserves to be surrounded by beauty and comfort. That's why we have created FERNE: a fresh brand of outdoor and indoor furniture, manufactured in Poland, in the heart of Europe. FERNE responds to the growing demand for furniture that is both comfortable and aesthetic. The brand is based on more than 30 years of Prosperplast's experience, offering high-quality products that are both comfortable and beautiful. Our furniture, produced in Central Europe, fits gardens, homes, and commercial spaces such as offices, cafes, and hotels.

FERNE is our latest brand. Prosperplast, a family company, specializes in innovative plastic processing technologies. We are a global organization with local production plants in small towns in Southern Poland, selling products in more than 90 countries.

Over the years, we have focused on injection molding, blow molding, and rotational molding — each offering different plastic forming methods, providing new uses and applications.

Our three decades of business operations have given us extensive experience and unique know-how. Our team of experts and modern machinery guarantee top quality. We rely on extensive infrastructure, with our own transport fleet and over 200 thousand square meters of warehouse and production space in Poland, Germany, Czechia, and Hungary. This allows us to successfully carry out projects and deliver innovative solutions that meet our customers' needs.

Since 1993, we have designed and produced numerous creative solutions for homes and gardens, including flower pots, rainwater tanks, garden tools, toolboxes, and storage systems. Now it's time for furniture.

We warmly invite you to visit the FERNE showroom at our headquarters in Rybarzowice, southern Poland.

Comfort-focused design.

User comfort is the priority of our brand. In designing FERNE furniture, we follow the latest global design trends, which contribute to the timelessness of our collections. With in-depth knowledge of materials and their unique properties — such as elasticity, lightness, and resistance to damage — we create furniture that is not only comfortable for everyday use but also easy to transport and store.

Every FERNE furniture model is designed with the user's maximum comfort in mind, achieved without the need for additional upholstered elements. The use of plastics, which are 100% recyclable, allows us to offer products as an eco-friendly alternative to furniture made from valuable primary resources like wood or rattan.

Quality widely available.

We are deeply convinced that furniture of the best quality should be available to anyone who values beauty and comfort. At FERNE, our goal is to offer first-rate products at affordable prices. To achieve that, we cooperate with renowned design studios from Poland and other countries.

As Prosperplast, based on our 30 years of experience, we have used the existing distribution channels, advanced logistics, and efficient manufacturing processes to turn our vision into reality. What matters to us as well is building long-lasting and committed relationships with our business partners. As we are in constant dialogue with our customers to make sure we understand their needs, we deliver timely and reliable solutions that meet their expectations.

The circular nature of plastics.

Circularity is one of the key standards at Prosperplast, alongside quality and safety. Our priority objective is to effectively manage resources in line with our philosophy of sustainable development.

Currently, recycled materials from external sources constitute around 40% of all the materials used in our manufacturing plants. We are constantly increasing the use of the recyclate thanks to the rapid growth of the plastic recycling sector in Europe.

The furniture by FERNE is characterised by its durability, lightness, and 100% recyclability.

As a large manufacturer, we build internal closed loops of resources, water, and energy. The closed-loop production process reduces the use of industrial water and heat. What's more, we have our own photovoltaic power plant to reduce our carbon footprint even further. In 2023, thanks to our resource management strategies, only 0.5% of our plastic waste had to be recycled externally.

Rooted in local furniture heritage.

Hardworking, professional, and innovative — the people who live in our region have always been like this. That's why FERNE draws on the rich local furniture tradition that dates back to the 19th century. It was then that bentwood furniture manufacturing developed in the city of Bielsko-Biała and in the region, following the methods by Michael Thonet. As an outstanding entrepreneur with a pioneer spirit, he launched the production of beautiful and functional beechwood furniture, accessible to the general public.

In the 1920s and 1930s, our region was also a leading manufacturing centre of nickel-plated bent tubes furniture. It was from here that Bauhaus icons, created by excellent designers such as Bruno Weil and Marcel Breuer, were sent out into the entire world.

Building on the legacy of Michael Thonet, we have written a new chapter of the local history of furniture manufacturing. At Prosperplast, we produce affordable, durable, and lightweight furniture with a timeless design aesthetic, at the same time taking up new challenges and using innovative plastics processing technologies. Our products are environment-friendly and fully recyclable.

Redefining excellence.

The Brene Collection by FERNE has been honored with the prestigious German Design Award 2025, recognizing its innovative design, exceptional functionality, and timeless aesthetic. This esteemed accolade, presented by the German Design Council, celebrates outstanding contributions to the field of design and highlights projects that push boundaries while remaining relevant in a global context.

As one of the most respected awards in the design industry, the German Design Award stands as a benchmark for excellence, rewarding products and concepts that redefine creativity and set new standards for innovation. This recognition further underscores FERNE's commitment to merging the legacy of traditional craftsmanship with modern, sustainable solutions that resonate with contemporary lifestyles.

The BRENE Collection by FERNE has received multiple prestigious honors.

AWARD - WINNING COLLECTION.

In the photo: Szymon Mrózek and Tymoteusz Mrózek representing the FERNE brand at the iF Design Award Night 2025.

One of the most prestigious international design awards, presented for over 70 years by iF International Forum Design GmbH, recognizes innovation, quality, and functionality in design. Celebrating excellence across various design disciplines, the award honors products that set new benchmarks in aesthetics and practical value.

In 2025, this distinction was awarded to the BRENE Collection during a prestigious ceremony held on 28 April at the Friedrichstadt-Palast in Berlin.

In the photo: Szymon Mrózek and Tymoteusz Mrózek, representing the FERNE brand, during the award ceremony at the Ambiente Fair in Frankfurt.

A highly prestigious international design accolade, presented since 2012 by the German Design Council. This award is granted exclusively to projects nominated by experts, underscoring its exceptional status and rigorous selection process. It recognizes innovation, quality, and aesthetics in design, honouring products that set new benchmarks in global design.

In 2025, the BRENE Collection was honoured with the German Design Award.

must have

One of the most prestigious Polish design awards, presented since 2011 by the Łódź Design Festival. This award recognises outstanding Polish products that seamlessly combine innovation, functionality, and aesthetics, with winners selected by an Expert Council. It serves as a mark of quality, underscoring the significance of Polish design in both national and international markets.

The award was presented in 2024 during the Łódź Design Festival — the most widely publicised event in Polish design.

In the photo: Szymon Mrózek, Art Director of the FERNE brand, together with the Polish designers of the BRENE Collection.

“Functional Forms. The Story of Bentwood Furniture from the Podbeskidzie Region – Makers, People, and Products”

In the photo: a book launch event and a meeting with the authors at the Municipal Library in Buczkowice, Poland.

One of the book's authors is Paweł Mrózek — President of Prosperplast and founder of the FERNE brand. His personal involvement underlines the strong ties between our brand and the region's traditions and history. FERNE was born out of a desire to foster a creative dialogue between craftsmanship and contemporary design. Thanks to innovative technologies, we create furniture that is modern in form, yet deeply rooted in the values of local heritage.

FERNE is more than just a brand — it is the continuation of a story that began many years ago and lives on in every detail of our designs.

The book is available in three language versions: Polish, English, and German. To request a copy, please contact our sales department.

We are pleased to present a book that documents one of the most fascinating, yet still little-known chapters in the history of Polish design — the story of the bentwood furniture industry, which evolved over decades in the Podbeskidzie region. This richly illustrated publication brings together historical, social, and design perspectives. It is more than just a record of an industry — it is also a portrait of the makers, visionaries, and artisans who helped local designs reach international markets. For FERNE, the book serves as a vital source of inspiration, revealing the roots of the values that continue to define our brand: authenticity, durability, attention to detail, and respect for local heritage.

FERNE

Brene

The BRENE collection draws inspiration from timeless and iconic bentwood furniture.
In the photos: Chairs and armchairs from the BRENE collection,
elegantly arranged alongside other furniture pieces.

Timeless and light beauty.

The BENE collection redefines design. It has been inspired by the timeless and iconic bentwood furniture which was manufactured in the region of Bielsko-Biala in the early 20th century.

The projects are marked by visual lightness and elegance, which match both modern and classic spaces. The cohesive colour palette has been carefully designed to create one-of-a-kind arrangements by freely combining pieces in different colours. All of the above makes the BENE collection perfect for versatile uses.

When designing the furniture, we placed emphasis on human-oriented ergonomics, with the users' needs in mind. The seats and backrests are made of breathable slats and they adapt naturally to the body shape for ultimate comfort. All the items in the collection are lightweight and easy to carry. Their construction prevents water pooling, so they are hard-wearing and easy to clean as well. With its top-notch quality, durability, and timeless design, the BENE collection is made to last. What's more, particular pieces can be stacked, which makes their storage extremely convenient. All these features mean that every element of the BENE collection is a synonym for elegance, corresponding with the needs of the most demanding design lovers. The collection consists of a coffee table, an side table, a dining table, a chair, a chair with armrests, and an armchair.

The lightweight construction of the BENE collection ensures that all items are easy to move and store.

In the photo: BENE armchairs showcased in a dynamic logistics environment, highlighting their versatility and adaptability.

In the photo on the right: BENE armchairs elegantly paired with a matching side table, creating a stylish and functional ensemble.

have a seat.

FERNE

The seats and backrests of the BRENE collection are crafted from breathable slats that naturally adapt to the body's shape, ensuring ultimate comfort.
In the photo: A thoughtfully curated arrangement of chairs, armchairs, chairs with armrests, and side tables graces the terrace of the Pod Dębówcem restaurant, combining comfort with style in a charming outdoor setting.

FBRS884

Dining table

FBRS888

Brene

BRENE tables, coffee tables, and side tables allow for comprehensive space arrangement. Thanks to the use of slat designs, the tables are lightweight, easy to clean, yet solid and durable.

The stackable feature makes the collection functional wherever storage is important. The legs for the table and coffee table are packaged separately and are very easy for the user to assemble, which improves logistical aspects.

NEXO — Perforated design. Architectural precision. 2026 season premiere.

FERNE

NEXO is a collection inspired by architecture — born out of a fascination with form and designed with everyday comfort in mind. Its defining feature is perforation: a rhythmic pattern of elongated, rounded openings that give the forms a sense of visual lightness, evoking both modernist and contemporary architectural facades. The fusion of bold design and functionality makes NEXO a modern, versatile solution — perfectly suited to private and public spaces, both indoors and outdoors. The collection includes an armchair, chairs with and without armrests, a barstool, and a table.

Bar chair

FNEK5510

515 x 500 x 1010

Nexo

The NEXO bar chair is a modern take on the classic bar seat — lightweight, stable, and comfortable. Its perforated detailing echoes the motifs of modern and modernist façades, reinforcing the architectural identity of the collection. Designed with functionality in mind, it's perfectly suited to both residential and commercial settings — indoors as well as outdoors.

Nexo

The NEXO table is a contemporary complement to the collection. Its design, aligned with the collection's signature perforated motif, also draws inspiration from architecture and seeks to balance aesthetics with functionality. Like the other pieces, it is made from a durable, weather-resistant material, making it ideal for both indoor and outdoor use — whether in a garden, on a terrace, at a café patio, or in public spaces.

FERNE

Rimo

The RIMO collection seamlessly blends classic elegance with modern materials and functionality.
Featured in the photos: high bar chairs at a stylish counter, alongside chairs and armchairs
perfectly complementing a kitchen space.

Light classic collection.

The RIMO collection combines the elegance of classic bentwood furniture with modern design and functionality. Here, tradition meets innovation, and the classic form is paired with modern moulding methods and materials. The gentle rounded shapes that allude to Thonet's designs are coupled with stylish colours to give the furniture a delicate and fashionable look.

The smooth lines and "bent" elements create a harmonious combination of classic design and modern solutions. Made with precision and attention to detail, the collection is of prime quality. The RIMO furniture is functional and comfortable while retaining timeless aesthetics. It's a sustainable and affordable alternative to traditional wooden chairs.

The collection comprises a chair, a chair with armrests, an armchair, two bar chairs of different heights, a round side table, a round high side table, coffee tables, and dining tables.

In the photos: an armchair and a low bar chair from the RIMO collection and a tall side table.

FERNE

Milane

The MILANE collection is characterized by a minimalist style, exceptional seating comfort, and streamlined logistics.
In the photos: a set of chairs, armchairs, a chair with armrests, and a side table in the garden.

Available comfort.

MILANE is an impressive collection of comfortable garden furniture. Its characteristics include the minimalist style, exceptional sitting comfort, and simple logistics. As monolithic forms are very popular among users, we have decided to create an entire collection in this spirit. By optimising the production process, we've made sure the collection is affordable for the wide public.

With their distinctive bends and soft shapes, all the pieces look strong and attractive, ensuring stability and durability. The single-point injection technology used in the MILANE collection created the smooth shapes of the furniture, emphasised by the satin finishing. The collection offers an array of subtle, timeless colours. MILANE comprises a chair, a chair with armrests, an armchair, and an side table that can also serve as a stool.
